

LED TECHNOLOGY

FOR LIGHT THAT LASTS

A bright, white light that's virtually maintenance-free.

Made in the USA, GE NIGHTHAWK™ LED lamps offer real advantages over other technologies. They have a long life, require no maintenance beyond normal lens cleaning, and produce light with a color temperature that is close to daylight.

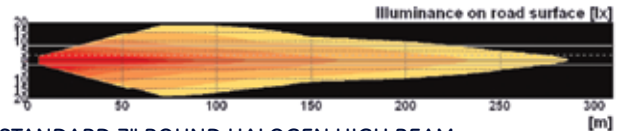

INNOVATION

FROM A LEADER IN AUTOMOTIVE LIGHTING

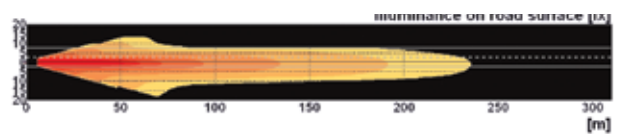

These long-lasting headlamps replace conventional sealed beam halogen products with efficient LED technology that gives you:

- Lasting efficiency:**
 Delivers longer life (15,000 hours) and draws less amperage than standard halogen headlamps.
- Superior durability:**
 Utilizes a rugged lamp housing to withstand impact and solid-state circuitry design for vibration resistance; epoxy-sealed electronics avoid moisture and corrosion.
- Improved visibility:**
 Resists wear and distributes light evenly using a non-yellowing, polycarbonate lens.
- Simple installation:**
 Uses standard, H4 wiring connection and works with both 12V and 24V systems – simply plug them in and go.
- Visual appeal:**
 Produces a unique split-lamp low beam and high beam appearance.

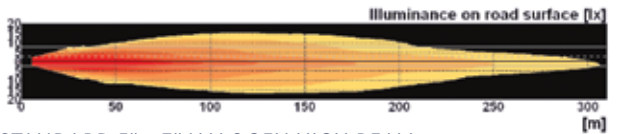

GE NIGHTHAWK™ LED 7" ROUND

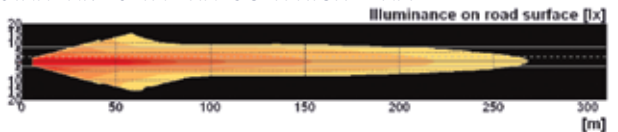

STANDARD 7" ROUND HALOGEN HIGH BEAM

GE NIGHTHAWK™ LED 5" x 7"

STANDARD 5" x 7" HALOGEN HIGH BEAM

15,000 HOUR LAMP

Product Code	Lamp Description	Direct Replacement For	Color	Meets DOT Requirements	Lamps/Card	Cards/Inner	Cards/Master
69821	NH LED 7" RND	6012, 6014, 6015, 6016, 6017, H5024, H6024	5600K	✓	1	6	24
69822	NH LED 200 RECT	6052, 6053, H5054, H6054	5600K	✓	1	6	24
69823	NH LED 4.5" Round		5600K	✓	1	6	24

Look to replace headlamps in pairs to ensure uniform light and life performance.
