

**General Electric**  
Automotive lamps

## H8, H9, H11

Designed to provide higher luminance for superior optical performance & easy installation

### Benefits

- High output - H8, H9, H11 lamps provide the highest luminance of any Halogen lamp in their category
- Sealed plastic base - gives excellent external seal and facilitates easier installation and replacement
- Latest generation of Halogen lamps to give no compromise multi-function application - high, low beam & fog.

**GE innovation, experience assures top performance**

GE pioneered Halogen lighting and continues to develop the latest technologies to assure you of the highest quality and reliability, light source after light source.

Type	Rated Volts	Rated Watts	Test Voltage	Watts	Lumens	Base	Application: High	Low	Fog
53090 H8	12V	35W	13.2V	40.1	790	PGJ19-1			•
53100 H9	12V	65W	13.2V	68.8	2120	PGJ19-5	•		
53110 H11	12V	55W	13.2V	55.3	1320	PGJ19-2		•
