

INDOOR COMMERCIAL

Type: GETC 236 MO (R-200) DL

Indoor decorative, recessed mounting fixture suitable 2x40/36W Fluorescent Tube Lamp. The fixture is complete with all accessories including low loss, open construction copper ballast, power factor correction capacitor & is pre-wired upto the terminal block.

Applications:

Ideal in areas where low glare is desired such as:

- VDU stations.
- Electronic assembly.
- High precision areas like watch assembly.

Type	Type of Lamp	Rotor Holder	Power Factor	Mains Voltage (V)	Pack Qty. (Per Box)
GETC 236 MO (R-200) DL	2x36/40W FTL	Push fit Type	>0.9	240	2

Technical Specifications:

- Housing made of CRCA sheet steel 22/24 SWG, painted stove enamelled white.
- Low loss, open construction, vacuum impregnated ballast.
- Mirrors made of very high purity anodised aluminium sheet for best optical efficacy. V-shaped cross louvers reduce brightness desired in low glare applications.
- A separate earthing terminal is provided inside the luminaire for electrical safety.

Mounting Arrangement & cable entry:

The luminaire is provided with 19mm knockouts at the top for suspension from ceiling. The cable entry is through the knockouts.
