

## Special LightFair Edition

### GE Lighting's Products Shine at LightFair 2003

Many new products were exhibited at the GE Lighting booth at LightFair this year. If you didn't get to New York, or missed the opportunity to stop at the booth, here are a few highlights of new additions to the GE Lighting family.

#### **F28 UltraMax™ System**

The GE F28 UltraMax System couples GE's new F28T8 lamp with the GE UltraMax electronic ballast and offers up to 40% energy savings when it replaces a standard T12 system. This system offers Multi-Voltage Control, Anti-Striation Control and Arc-Guard Protection. [Learn more.](#)

#### **300/320 Dual-Wattage CMH™ Lamp**

Ideal for new installations, this innovative product is open-fixture rated and offers 80% lumen maintenance and a CRI >90 with a broad color spectrum that's great for retail applications. [More.](#)

#### **42 Watt Spiral® CFL**

This exclusive GE product delivers 2650 lumens and fits standard floor and table lamps. Its 10,000 rated life, high lumen output and flicker-free performance, make it ideal for the hospitality market. [Read more.](#)

### 2002 GE Edison Award Winner Announced

The 20th Annual GE Edison Award was presented to the team of Robert Daniels (Brilliant Lighting Design) and Bernardo Fort-Brescia and Sergio Bakas (both of Arquitectonica) for their lighting design of the Façade & Show Illumination of the Golden Moon Hotel & Casino (Philadelphia, Mississippi). The Award was presented May 5, 2003 at a special reception and dinner in New York. The event, which marked the twentieth anniversary of the award, also paid tribute to the elite group of lighting designers who created the past award-winning projects. [Learn more.](#)
