Call for Entries – 2006 GE Edison Award

Entry Deadline: January 10, 2007

GE Consumer and Industrial, Lighting, announces a call for entries for the 2006 GE Edison Award competition. This program is open to those lighting professionals who creatively employ significant use of GE lamps in a lighting design project that is completed between January 1, 2006 and December 31, 2006.

Projects scoring the highest number of points qualify for **Awards of Merit** and **Awards of Excellence**. The judges also select **Awards for Sustainable Design** and an **Award for Residential Design**. The **GE Edison Award Winner** is selected from among the Awards of Excellence. See [2006 Call for Entries](#) for details.

Recent Winners - GE Edison Award

GE Edison Award Winner

The design team of Dennis Vogel, Keith Irtenkauf and Sonia Noble of Illuminating Concepts (Farmington Hills, MI, USA) received the 23rd annual GE Edison Award at Caesars Palace, Las Vegas, May 29, 2006 for their project, The Guardian Building Renovation.

The Guardian Building in Detroit, Michigan, is one of the most significant and striking Art Deco skyscrapers in the world. Its recent, extensive renovation returns this landmark building to its original glory and prominence on the Detroit skyline. The lighting design respects the historic nature of the building, while highlighting its architecture and unique finishes.
