

NIGHTHAWK™ SPORT

The GE brand delivers a performance boost.

NIGHTHAWK™ SPORT headlights produce a whiter light than GE's regular headlights. The whiter light they produce falls in the bluer section of the color spectrum.

With **NIGHTHAWK™ SPORT** headlamps, you get a whiter light combined with additional brightness compared to GE's standard headlamps. Consumers looking for a whiter light will enjoy the benefits of improved color and more light on the road.

NIGHTHAWK™ SPORT headlamps are available in 10 technical lamp types to fit most vehicles. 13 SKUs accommodate most retail settings.

NIGHTHAWK™ SPORT headlamps - Available in our most popular forward lighting types.

The GE brand gives you selling power that outperforms the competition. A recent consumer survey revealed that people see GE not only as a high-quality company, but also one that's almost twice as innovative as competing brands. The same survey showed that consumers are willing to pay a premium for GE products over any other brand.
