

# LONG LIFE. MAXIMUM LIGHT. GE LONG LIFE REFLECTOR XL LAMPS.

Exclusive silver reflector and a specially designed filament provide extra long life, while delivering more light than standard competitive reflector bulbs.

**XL means Xtra Life.** A life 25% longer (2,500 hours) than standard reflectors means fewer lamp replacements and lower lamp replacement labor and maintenance costs.

**High light output.** Delivers more light than competitive standard reflector bulbs.

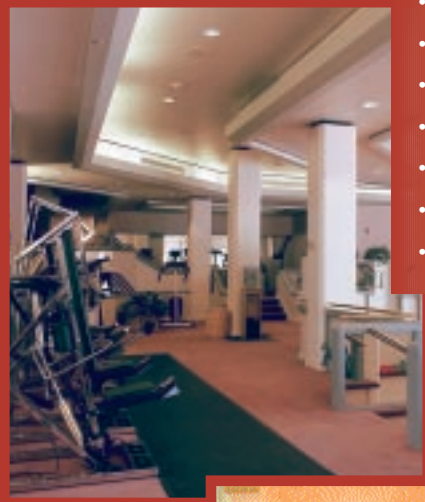

**Same overall length and width** as standard reflector lamps.

**Ideal indoor lamp** solution for high ceilings and track lighting.

**Available in** R20, 30 and 40; popular wattages.

## Applications

- Recessed Lighting
- Track Lighting
- Peripheral Lighting
- Corridors
- Lobbies
- Commercial
- Hotel/Motel
- Office
- Residential
- Retail
