How to find your lamp in the data table in the pages below

Identify your lamp shape on the left bottom front of packaging:

- Find your Lamp description printed on your lamp
- Find the Package Desc
 and product code (PC)
 on back of the package

800 LUMENS

10W 110mA 120VAC 60Hz CHINA-A 20196TS **GE** Lighting

What do the results in the data table mean?

- 1. We measure 2 things:
- a. How low can the light dim compared to the maximum light output?
- b. Can you see the lights flicker when they are dimmed?
- 2. What do the colors mean?

	Dimming Depth	Observable Flickering?
Excellent	10%	< 30% of people see flicker at lowest depth
Good	13%	< 50% of people see flicker at lowest depth
Compatible (industry standard)	20%	~ 50% of people see flicker at lowest depth
Not suitable	> 20%	> 50% of people see flickering near lowest depth

IMPORTANT NOTICE – Because dimming equipment, applications, and conditions of use are many, varied, and beyond our control, this information necessarily is based on limited sample sizes and testing, and Savant Technologies LLC does not represent or warrant the suitability of a lamp for any particular application or use in any particular equipment. This information may be updated and changed at any time without notice as new equipment and information is developed.
