

Visit geilighting.com/led-plus

Bulbs can be controlled individually by using the remote within close range of a specific bulb. One remote can control multiple LED+ Color bulbs.

Use the remote provided to change colors, switching from daylight (5000K) to cool white (4000K) to warm white (3000K) to soft white (2700K) or to adjust brightness. You may also use the remote to turn the light on and off.

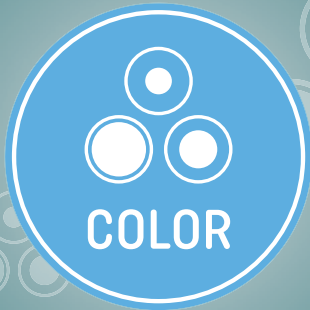

Turn on the lamp

Screw bulb into the socket
